WILLIAM BLACKMORE,
mh1-tf Proprietor.

There is said to be "many a slip between the cup and lip," and, by and by, would it not be better for our young people, and some of ourselves ones too, if there were a good many more.

A London magistrate has decided that the playing of a large organ in a house daily for five hours is an intolerable nuisance, but not actionable.

An exchange says that Cleveland's superfluous dogs are made up into glue. We never heard sausages called by that name before.

"You call that a trunk, do you?" growled a dejected hotel porter. "It only needs a lightning-conductor to make it look like a boarding house."

Wealth may not always bring happiness, but it prevents Connecticut cabbages from obtaining exclusive possession of the tobacco market.

When she says: "Now see here, I want to tell you something;"—then it is time for you to straighten up, and change the subject.

An apiarist at Aurora, Ill., has lost 95 swarms out of 100 swarms of bees in consequence of a civil war between them.

A Connecticut man rolls in wealth accumulated in the business of manufacturing genuine relics from the Holy Land."

A young lady who has been practicing "Let Me Kiss Him for His Mother," says the more she tries it the better she likes it.

A Peoria paper says that there is a dry goods clerk in that city who can bow so low as to wipe his nose on his boots.

Man was made when nature was but an apprentice, but woman when she was a skillful mistress of her art.

An In-Door Photograph.

The woman who is able to systematize and carry on smoothly the work of an ordinary family illustrates higher sagacity than is called for by seven-eights of the tasks done by men. Men take one trade and work at it; a mother's and housekeeper's work requires a touch from all trades. A man has his work-hours and definite tasks; a woman has work at all hours and an incessant confusion at all tasks. Let any man do a woman's work for a single day: wash and dress the children, having provided their clothes the night before, see that breakfast is under way to suit a fault finding husband; the wash-boiler on with water for the wash, and the clothes assorted ready for washing; the dish-water heating, and a luncheon throughout for school-goers: a nice dinner in the good man's dinner-pail; the beds made after proper airing, and the bugs fought off and kept down; the father's conveniences exactly his for family prayers; the systematic sweeping of the house at least once a week, and of living rooms once to three times a day, according to the number of men to bring in the mud; the actual washing and outhanging of clothes; the drying, and sprinkling and folding and to-morrow, the ironing of the same; the sorting and mending of them, and provision of new ere the old gives out; the making of bread three times a week, with cakes and pies inter-calated judiciously; pickles, preserves and cellar stores to be laid in and not forgotten in their seasons; children's manners to be attended to; company to be entertained; her own person to be tidied up to please his eye; the tired man to be welcomed and waited on by the no less tired her, the home made cheerful; his trowsers to be patched after he goes to bed, "so he can put them on in the morning;" the children to be helped about their lessons and reminded not to forget their Sunday school lesson, the shopping and marketing to be done for the household; house repairs attended to and matters in general kept straight around home. Meanwhile "pap muss not be troubled or hindered about his work," because his work brings in the money. Yes, the man's work brings the money. But man's work does not tax the head and heart and hands as woman's work does.

Besides this, man is helped by many strong relishes and incentives to labor. He is out in the world among folks. He comes and goes and is refreshed in spirit. But woman works alone and almost unknown. To please her husband and her God is her only motive, and also, how many wives there be who sob in secret before their God because they fail to win one smile or word of praise from their husbands. It is stupid and brutal for any ordinary man to be finding fault with women.

Style in old Times.

In 1782 Governor Hancock received his guests in a red velvet cap, within which was one of fine linen, turned up over the edge of velvet one or two inches. He wore a blue damask gown, lined with silk, a white satin embroidered waistcoat, black satin small clothes, white silk stockings, and red morocco slippers.

The Judges of the Supreme Court of Massachusetts, as late as 1783, wore robes of scarlet, faced with black velvet; and in Summer black silk gowns; gentlemen wore coats of every variety of color, generally the cape and collar of velvet of a different color from the coat. In 1780 General Washington arrived in New York from Mount Vernon, to assume the duties of the Presidency. He was dressed in a full suit of Virginia homespun. On his visit to New England he wore the old Continental uniform, except on the Sabbath, when he appeared in black. John Adams, when Vice President, wore a sword, and walked about the streets with his hat under his arm. At his levees in Philadelphia, President Washington was clad in black velvet, his hair powdered and gathered behind in a silk bag; yellow gloves; knee and shoe buckles, he held in his hand a cocked hat ornamented with a cockade, fringed about an inch deep with black feathers; a long sword in a white scabbard, with a polished steel hilt, hung at his hip.

A STRANGE DANCE.—They have a singular kind of dance on the greens of the country villages in Russia. The dancers stand apart—a knot of young men here, a knot of maidens there—each sex by itself, and silent as a crowd of mutes. When the piper breaks into a tune a youth pulls off his cap and challenges a girl with a wave and a bow. If the girl is willing, she waves her handkerchief in token of assent; the youth advances, takes a corner of the kerchief in his hand, and leads his lassie round and round. No word is spoken and no laugh is heard. Stiff with cords and rich with braids, the girl moves heavily by herself, going round and round, and never allowing her partner to touch her hand. The pipe goes droning on for hours in the same sad key and the prize of merit in this "circling," as the dance is called, is given by the spectator to the lassie who, in all that summer revelry, has never spoken and never smiled.

A syrian convert to Christianity, as the story goes, was urged by his employer to work on Sunday but he declined. "But," said the master, "does not your Bible say if a man has an ox or an ass that falls into a pit on the Sabbath day he may pull him out?"—"Yes," answered Hayoh; "but if the ass has a habit of falling into the same pit every Sabbath day, then the man should fill up the pit or sell the ass."—The story has a sort of swivel "moral" which will fit a great many disputed points it these days.

An exchange says: "Some of our young men who go to see the girls have adopted a new way of obtaining kisses. They assert, on the authority of scientific writers, that the concussion produced by a kiss will cause the flames of a gas jet to flicker, and easily induce the girl to experiment in the interest of science. The first kiss or two, the parties watch the flame to see it flicker, but soon become so interested in the experiment as to let it flicker, if it wants to.

An exchange says: "Cleveland has invented a patent bug buster, worked with an air pump. All the apertures in a room are stopped but one, at which the deadly bug buster is placed. By exhausting the receiver, a current of air is produced strong enough to draw all the vermin out of the room, through the air pump, into the hopper, where they are put under the influence of chloroform, and stabbed in the back with a pitchfork."

At a Court held in Lynchburg, Va., a distinguished member of the bar, appealing to the Court for the discharge of his client, wound up with the statement that if the Court sent him on for further trial, a stain would be left upon his character that could not be wash d off "by all the waters of the blue ocean and all the soap that could be manufactured from the ponderous carcass of the common wealth's attorney." To this the ponderous attorney replied, that, while he "deemed it foreign to the case at the bar, he desired to advise the Court, if they thought it advisable to boil his body into soap, that they should look to the opposite counsel for the 'concentrated lie' out of which to make it!" Court, bar, and spectators exploded.

CAKES.—Those who are compelled to "hurry up their cakes" may find the following variety, prepared for various callings, convenient to select from: The cake for prize fighters, pound cake; the most suitable for carpenters, plane cake; the most relished by loafers, sponge cake; the most palatable to boatmen, current cake; the most acceptable to hangmen, drop cake; the best for farmers, seed cake; the kind indulged in by surgeons, cup cake; the most healthy for plumbers, plumb cake; the debtors cake, short cake; the gardener's cake, the hoe cake; the one for summer use, the cake of ice; the one for discount, an oat cake; a cake not enjoyed by any one, a stomach ache.

At a so-called spiritual sitting in Hartford, recently, there was present a woman who mourned the loss of her consort, and, as the manifestations began to appear, the spirit of the departed benedict entered upon the scene. Of course the widow was now eager to engage in conversation with the absent one, and the following dialogue ensued: Widow—"Are you in the spirit world?" The Lamented. "I am." Widow.—"How long have you been there?" The Lamented. "Oh, some time." Widow. "Don't you want to come back and be with your lonely wife?" The Lamented. "Not if I know myself. It's hot enough around here."

TOO THIN.—Horses, as a general thing, get too much licking and too little feed. If a man loses his hat while driving his horse, he licks the horse to pay for it. If he runs into another wagon through his own carelessness, he licks his horse to make it all right. If his horse slips or stumbles he gets licked for it—if he does anything he gets licked for it, if he don't do anything he gets the same. A great many horses know "a sight" more than drivers, and if they could change places with them, society at large would be gainers, and so would horses.

An Iowa gentleman, who was involved in domestic troubles, met with a genuine "Job's comforter" the other morning. Meeting an old friend, who was a widower, he related his troubles to him, and told him he expected to be broken up, as his wife had commenced suit against him for the sum of three thousand dollars alimony. "Well," says the widower, "I'll wait and see how she comes out, and if she succeeds I'll go for her."

Young people should acquire the habit of correct speaking and writing, and abandon as early as possible any use of slang phrases. The longer you put this off the more difficult the acquirement of correct language will be; and if the golden age of youth, the proper season for the acquisition of language, be passed in its abuse, the unfortunate victim will most probably be doomed to talk slang for life.

HORSE FEED.—Many English farmers feed no hay to their work horses, but keep them in high working order with straw, roots and shorts. The equivalent of twelve tons of hay can be produced on one acre in roots. Farmers in this country will eventually bring vegetables more in use as stock feed, for roots are cheap, healthy and nutritious.

In reply to a young friend leaving a town because some things in it were not exactly to her taste or contentment an old lady of experience said: "My dear, when you have found a place where everybody and everything are always pleasant, and nothing whatever is disagreeable, let me know and I'll move there too."

"Really, my dear," said poor Jones to his better half, "you have disappointed me. I once considered you a jewel of a woman; but you have turned out only a bit of matrimonial paste." "Then, my love," was the reply, "console yourself with the idea that paste is adhesive, and will stick to you as long as you live."

A gentleman met a citizen of Somerville recently, and said to him. "Your home is in Somerville, I believe?" "No, my home is in Heaven," replied the Somerville man. "Let me give you a little advice," said the gentleman—"You hurry and get a postal card and write your folks that you are nevercoming home.

Glens Falls, New York, is said to be well filled with handsome, marriageable girls, and that young men from a distance, with good characters, and a capital of five dollars apiece to pay the preacher, could be made awful happy by calling around there, a.

There is a girl in Boston who had been engaged at different times to fifteen different men, and calculates that the sum total of the kisses she received from them would amount to a larger number than there are dollars in the national debt.

John Bull has complacency enough on ordinary occasions, but as an extraordinary, here's the London Examiner saying that the vast majority of English newspaper articles are, from the literary point of view, as bad as bad can be.

"My dear," said a husband to his wife, "I'm going to start a coffee plantation." "How'll you get the land?". "Oh, there's no trouble about that; I always have plenty of coffee grounds in my cup.

"Waiter," he yelled with an awful roar, "This napkin, I'm sure has been used before," By four, sir, no," did the waiter say—"You're only the third that's used it today."

In a large iron factory in Western Pennsylvania all the heat for smelting is made by gas, which is brought in pipes from a natural well nineteen miles away.

THE CHRONICLE.

BODIE, APRIL 10, 1880.

SAN FRANCISCO AGENCY.—L. P. Fisher, 21 Merchants' Exchange, is our Agent, and is authorized to contract for advertising, receive subscriptions and make collections on our account.

The Federal Census.

The Supervisors of the Federal Census have been in San Francisco arranging for taking the Census, which must begin on the first of June. Mono county is in the Fourth District, with Chas. W. Dana, of San Luis Obispo, as Supervisor. The districts are subdivided by the Supervisors into enumeration districts, which must be small enough to allow the enumerator to finish his work within time allotted by law—during the month of June. In most cases each town, township, etc., will be considered as constituting an enumeration district, if the population exceeds seven or eight hundred inhabitants. The Supervisors are allowed $500 for the work in their districts, with an allowance for clerk hire. The enumerators are to be allowed $6 a day or a fixed sum per name, which shall not exceed in the aggregate the above per diem. In cities of 10,000 inhabitants the work must be done within two weeks, while in small towns and counties, twenty-six working days is allowed. The enumerators must be non-partisan, and selected with care to perform their work accurately and promptly, but sex is not to stand in the way of appointment—women being eligible, if competent. The law provides that any person refusing to answer any questions propounded by census enumerators shall be liable to be punished therefor on conviction and subject to pay a fine not exceeding $100.

"PANT" IN LUCK.—Pantland, formerly of the Ormsby House, Carson, and of the of the Carsonian Restaurant, Bodie, is in luck, judging from the following from the Tucson, (Arizona) Citizen. "J. T. Pantland, of Harshaw camp, reported on Saturday last the discovery of the old Vega mine. This is one of the old mines worked by the old Jesuit Fathers some two centuries ago, and from which it is said fabulous amounts of rich ore were carried from the Patagonia Mountains on pack animals to old Mexico for reduction. The late Captain Devers, well known to many of the early settlers of Tucson, employed a large number of Mexicans to hunt up the Vega mine, but without success. This was twenty years ago. The old mine is located on the west side of the Patagonia Mountains and about two miles west of the old Guajolote mine. Mr. Pantland, after finding and locating the mine, returned to Harshaw for supplies and ropes, after which he in company with others went back to explore the ancient treasure house."

LETTER SERVICE.—The published statement that Postmaster-General Key has made up his mind to approve the report of Department officials adversely to Wells, Fargo & Company, is untrue. He will not take up the case until the expiration of the time accorded for further arguments—namely, until May 1st—and nothing has developed to change the situation heretofore recorded. The best informed members of the Pacific Coast delegation, after conversing with Judge Key, are of the opinion that the Express Company's letter-carrying business will not be interfered with.

At the annual election of the Panama Railroad Company, two changes in the Board of Directors were made, D. O. Mills and William B. Dinsmore were chosen to fill the places of J. W. Burke and H. H. Baxter. The annual Report of the Company was received. To correct an erroneous impression that the business between New York and San Francisco forms the largest part of the traffic, the tonnage of that traffic is given, and it is only about nineteen per cent. of the freight business of the road.

The Board of Directors of the National Rifle Association have resolved that the match for the Centennial trophy has lapsed by the failure of any foreign team to enter since 1877, but recommended that the trophy be offered again for competition, under the condition that in the future only one team to represent Great Britain and Ireland will be eligible. An American team will go to Ireland in June to compete in the International contest.

The cost of winding up the Freedman's Bank, within the past four years, has amounted to $336,000 of which more than $50,000 has been paid for salaries to the Commissioners, $70,000 to agents, and $21,000 to counsel. And it isn't wound up yet. This seems almost as bad as the original swindle.

The Chicago Stonecutters' Union sent a man to urge the Illinois Legislature to prohibit the employment of convict labor, and it was discovered that he had learned his trade in the penitentiary.

Thus far 25,000 colored emigrants have located in Kansas, and still they are rushing in. It will count heavily for Kansas, and against the South, when the census is taken.

M. O. Button, the arrow-maker of Santa Cruz, recently brought down nine squirrels, three rabbits and a jay in an afternoon's hunt with bow and arrows.

General T. H. Simpson, of the Army, has retired to private life at St. Paul, Minnesota. He has been in the service of the Government for fifty-two years.

The surveyors of the route for a railroad from Austin to Candelaria are fast approaching the latter place.

WHITDRAW YOUR SUPPORT.

It seems the Chinese who have gone East are well pleased with their reception, particularly in New York, where they have the freedom of the city, but not more so than their brethern in San Francisco. It is pleasing to know that they are content with the change, and it is to be hoped they will make such representations to their California friends as will tend to greatly increase the rush of Celestials to the Eastern States. If our people would stop patronising them they would be compelled to leave the State, and find a lodgment elsewhere, but so long as Californians will employ them as cooks, and in the kitchen generally, and give them their washing, buy their garden truck, and continue to put money in their purses, just so much longer will we be overrun by them. Our Mill Creek friends have hit the nail on the head by refusing to allow Chinamen to settle in their midst. Every small place in the State can rid itself of Chinamen by giving them no encouragement, in the way of work, to tarry where they are not wanted. They would then drift to larger towns or cities, where they would congregate in such numbers that they would be compelled to scatter, and from such places they would naturally drift East, where the people are in sympathy with them, and hold out inducements to them to locate in their midst.

The Democratic State Convention of Oregon, has passed resolutions in favor of a tariff for revenue only, and against a protective one. A party with such a platform will go to the wall by an overwhelming vote. The day has gone when the American people will vote for, or sustain any party that puts a plank in its platform antagonistical to the workingmen's interest in this country. Free trade is a poor rallying any for the Democracy. Free trade means that manufactures of every description would entirely cease, and the country be flooded with foreign goods.

SUPERIOR JUDGE.—The following, as regards Mono county, were the proceedings in the Senate on Tuesday last:

The following communication was received from the Supervisors of Mono county:

The undersigned, composing the Board of Supervisors of Mono County, California, would respectfully remonstrate against the passage into a law the bill introduced into the Assembly by the Hon. Jos. Wasson, providing for the appointment of a Superior Judge for this county, to hold Court at the Town of Bodie. It is a matter seriously affecting the whole people of the county, in which they have not been consulted, involving, as it necessarily would, a heavy and extraordinary expense that the present financial condition of the county, the present revenue laws or those in contemplation would wholly unwarrant or permit; and we fully believe that one competent Judge would be amply sufficient to discharge all the duties pertaining to the office; and for the purpose of clearing the calendar, as it now exists, a Judge from a neighboring county or one temporarily appointed for the purpose would afford all necessary relief. To more fully represent the whole matter to your honorable body, we would respectfully ask that you suspend action in the premises until Thursday, the eighth instant, at which time we believe the facts may be fairly represented, and your remonstrators would ever pray.

The Committee on Judiciary, to whom was referred Assembly bill No. 557—An Act to provide an additional Judge of the Superior Court of the County of Mono—have had the same under consideration, and report the same back to the Senate with amendments, and recommend its passage as amended.

INHUMAN MOTHER.—Sometime since a married couple uptown separated and by mutual agreement, gave their young child to a neighbor to take care of, the parents to have the privilige of visiting it whenever they wished to. On Thursday, we learn, the mother, somewhat under the influence of liquor, visited the child, and abused it, choking it and might have caused its death had the lady of the house not have acted promptly and had the mother put out of the house. The infuriated woman attacked the husband of the lady having charge of the child with a broomstick, which she broke over him, and then went out and pounded the house with a board, creating some excitement in that part of town. Officer Whittaker was sent for, but the woman was not arrested, she having retired from the scene before he arrived.

BUSINESS DIRECTORY.—Thomas B. Sturges, of L. M. McKenney & Co., San Francisco, publishers of the Pacific Coast Directory, is here for the purpose of "doing" Bodie in the directory business. We commend him to the good offices of our business men, trusting that our flourishing city may make a good showing in the next Directory.

COURT PROCEEDINGS.—Yesterday Justice Peterson fined Robert Hamilton $24 for firing a pistol in the street; the fine was paid.

Justice Newman fined Wm. Kelly, for fighting, $25. Hugh Carlin, for fighting, demanded a jury trial, which will take place this morning at 10 o'clock.

AMPUTATION.—Yesterday Dr. Davison amputated the fore finger of a miner named Miller, of Candelaria, who mashed the finger some time since, but did not have the would properly dressed, and has consequently lost the finger. Dr. Davison was assisted by Dr. Deal.

BODIE MINSTRELS.—This Troupe will give an entertainment at Miners' Union Hall on Monday evening. The programme is excellent, and the performance will undoubtedly be well worthy the patronage of the public.

FINE CONFECTIONARY.—Mrs. Swan has opened a confectionary store in Abbot's building on Main street, between Standard Avenue and Mill street. She intends to keep a fresh supply at all times at reasonable prices.

THE HORSE.—We are in receipt of a copy of "a Treatise on the Hotse by Dr. B. J. Kendall & Co., of Enosburgh Falls, Vt." This is a valnable work and should be in the hands of all who have horses. The price is only 25 cents.

JUST RECEIVED.—Choice, Creamy Butter, in rolls, from one of the best California Daries at Point Reyes. For sale by Page, Wheaton & Co., Dealers in Choice Family Groceries.

LETTERS HELD.—There are letters in the Virginia City Postoffice, held for postage, addressed to T. T. Kavanaugh, Bodie, Cal., and H. E. Wood, Bodie, Cal.

RELIGIOUS.—Divine Service is held in Miners' Union Hall every Sunday at 10 A. M., by Rev. I. M. Cassin, Catholic Priest.

EVENING PAPER.—Hereafter the CHRONICLE will be issued every evening, except Sunday.

A platinum vein has been discovered at Diamond Mountain, Lassen county.

Application to Purchase Timber Land, No 116.

UNITED STATES LAND OFFICE.
Bodie, Cal., April 8th, 1880.

NOTICE IS HEREBY GIVEN THAT whereas Alexander Gray, a citizen of the United States, over the age of twenty-one years, has made application under the Act of Congress entitled 'An Act for the sale of timber lands in the States of California, Oregon, Nevada, and in Washington Territory," approved June 3, 1878, to purchase at this office S ½ ¼ of S W ¼ and S W ¼ of S E ¼ of section 2, Township 4, North Range 25 East, M. D. M., containing 80 acres, claiming said land to be valuable chiefly for its timber. And the said applicant having made and filed in this office the affidavit as to the character of said land as required by said Act.

Now therefore, any and all persons claiming said above described land or any part thereof adversely to the claim of the applicant thereto, are required to file their adverse claims with the Register of the United States Land Office, at Bodie, State of California, during the sixty days publication hereof, or they will be barred by virtue of the provisions of said Act.

Positively the Best. The wafers were awarded the Highest and only medal given rubber plasters, at both the Centennial and Paris Exhibitions. Widely and favorably known among physicians as a great improvement on the ordinary porous plaster. Ask any physician in your own locality about it. The valuable qualities of the common porous plaster are in this article increased 10 fold by new and scientific medication. It relieves almost at once and cures where other plasters fail even to relieve. It is without doubt the best remedy ever devised for Lame and Weak Back, Rheumatism, Spinal and Kidney Complaints, and all local aches and pains. For sale by all Druggists. Price 25c.
